Net Weight: 26.2 lbs (11.9 kg)

Zoypalum

2-5-10

GENERAL USE GUIDE

F1502

Use to grow and maintain plant and turf species—especially *Zoysia spp.* and *Paspalum spp.*—that require low nitrogen inputs for optimal establishment and turf vigor. It is also useful for fall feeding of plants that require higher levels of phosphorus and potassium before winter. This product is tank-mix compatible with most fertilizers and pesticides. However, due to variability in water sources and pesticide formulations, a compatibility test is recommended.

Golf Course Sports Turf Lawns

Maintenance:

Apply 6.0 oz per 1,000 sq ft in enough water to provide sufficient coverage. Apply every 7 days. Higher rates can be used when soil nutrients are limited by reduced granular application. Can be tank mixed with other nutrients, control products, or growth regulators.

Trees and Ornamentals

Use 2 gal Foliar-Pak Zoypalum per 100 gallons of water.

Shrubs and Trees:

Drench 1 gal of finished solution per 1" diameter of tree or shrub. In areas where turf is present, inject the solution into the soil.

In Virginia, this lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

KEEP OUT OF REACH OF CHILDREN AND STORE MATERIALS IN CLEARLY MARKED CONTAINERS

Do not store in temperatures below 40°F.

DO NOT APPLY NEAR WATER, STORM DRAINS, OR DRAINAGE DITCHES. DO NOT APPLY IF HEAVY RAIN IS EXPECTED. APPLY THIS PRODUCT ONLY TO YOUR LAWN/GARDEN, AND SWEEP ANY PRODUCT THAT LANDS ON THE DRIVEWAY, SIDEWALK, OR STREET, BACK ONTO YOUR LAWN/GARDEN.

This product is not intended for use on food crop sites.
